

Reliable. Efficient. Genuine.

Liebherr O-Ring Kits

Everything you need in one box

- wide selection
- individual requirements

LIEBHERR

Quality and Safety in one Box

Liebherr O-rings come into play when maximum quality and safety are required.

Quality

Liebherr genuine parts offer the best efficiency and protection in the field. This is of vital importance as the performance of the whole machine relies on the quality of individual parts.

Convenient

A selection of the most commonly required Liebherr seals and O-rings in a robust and mobile case in order to make your work on the jobsite easier and more efficient.

Economic

Cost savings of up to 30 % for the kit as opposed to individual orders. All article numbers, quantities and descriptions are detailed in the enclosed parts list.

Modular Design

The Liebherr O-ring Kit is the ideal expansion to the existing modularly-designed Electric Toolbox. The proven L-Boxx system brings high flexibility and mobility, as well as simplicity into your service routine.

Expert advice from your local service partner.

Liebherr O-Ring Kits also available online! Further information on MyLiebherr.com
