- The Precast show takes place at the Colorado Convention Center in Denver, CO from February 8-10, 2024.
- Liebherr Concrete Technology exhibits at Booth # 1401.
- Attendees are able to get hands-on with an on-site Liebherr ring pan mixer.

Liebherr's concrete technology team will be exhibiting at the Precast Show in February 2024 showcasing the RIM 2.25 M ring pan mixer.

Newport News, VA (USA), Liebherr USA, Co., Concrete Technology, December 13, 2023 – The annual Precast show takes place in Denver, Colorado from February 8-10, 2024. The Precast show, organized by the National Precast Concrete Association (NPCA), provides a platform for thousands of industry peers to connect and network. In addition to the exhibit hall, plant tours, education sessions, and a Keynote luncheon will be held.

Liebherr showcases the [RIM 2.25 M ring pan mixer](#), and mixing technology Sales and Technical Specialist, Marcio Manzione, will be on site at the Liebherr booth for any mixing inquiries. Manzione noted, "This mixer is extremely versatile with the ability to be applied to several types of mixing designs. The machine has no blind spots, high shearing forces, fast mixing, and quick discharging time."

[RIM 2.25 M ring pan mixer](#)

The RIM 2.25 M ring pan mixer provides advantages for Liebherr concrete customers such as continuance movement inside the mixing chamber for better performance. The large opening in the cover of the mixer as well as the gearbox position also allows for easily accessible maintenance. And when service needs arise Liebherr offers a variety of spare parts and customer support to all customers.
