

The 13 HM.1 mobile fast-erecting crane

- Hydraulic one-person erection
- Space-saving aerial jib mounting
- 20° raised jib position, continuously variable
- Can be towed by a suitable 7.5 t truck
- Continuously variable drive assemblies
- Transport with complete ballast up to 80 km/h
- Integrated tandem axle with ABS
- Pneumatic lifting and lowering system
- Slip ring assembly for unrestricted slewing
- 160° jib position for obstruction avoidance

LIEBHERR

Technical data 13 HM.1

Working radius	20.0 / 22.0 m
Load capacity at jib head	600 / 500 kg
Max. load capacity	1500 kg
Hook height	16.0 m
Hook height (20° raised jib position)	20.7 / 21.3 m
Transport dimensions (l x w x h)	12.9 x 2.4 x 3.5 m
Slewing radius	2.3 m
