

The new 202 EC-B 10 Litronic

When something good becomes something even better

- + Weight-optimized compact head can be fitted using a smaller mobile crane
- + Single-piece counter-jib as standard, with lower weight and easier to install
- + Connect & Work: Fitting the fast and safe way
- + High handling capacity thanks to powerful FC drives, of own manufacture

Technical data	
Maximum radius	65.0 m
Maximum lifting capacity	10.0 t
Maximum lifting capacity at jib head	2.2 t
Maximum hook height	63.1 m

LIEBHERR

Compact, fast and economical

Transport and assembly of the 202 EC-B 10 Litronic
