

The new 280 HC-L luffing jib crane.

- + Maximum lifting capacity up to 28.0 tonnes – no competition!
- + Rapid re-reeving from 1 to 2 lines – extremely fast
- + Horizontal load path at the push of a button
- + Complete transport in container thanks to unboltable climbing brackets

LIEBHERR

Safe, flexible, and economical.

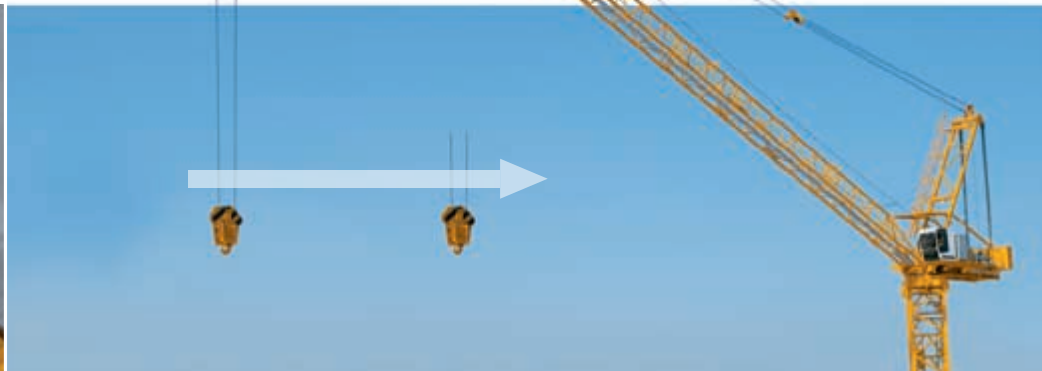

- + Designed for really confined spaces:
Only 7.5 m slewing radius (steel ballast)
- + Adaptable load curves for even greater flexibility:
8/16 t, 12/24 t or 16/28 t
- + Horizontal load path at the push of a button
for added safety and ease of operation.
- + High-performance drives from in-house manufacture
guarantee top quality – for decades of use.

Sure to be safe and sure.
Secondary brakes secure
the load and jib.

Flexible and adaptable.
Horizontal load path at the push
of a button for safe and secure
moving of the load.

Well thought through.
Unboltable climbing brackets
allow for complete transport
in the container.
