

RIV 0.06/100

Ring-pan laboratory mixer

Small mixer, great benefit.

Determine scalable results in a practical way.

- Optimal sharing forces in the mixture for challenging dispersing tasks
- Variable agitator speeds and direction of rotation independent of the mixing tool speed
- Diverse options of data collection and visualization available (temperature, speed, effective power, torque, moisture measurement)
- Scale reference and so scale-up basis to bigger mixer sizes
- Area of application: fine-grained mixture, suspensions, powder

Technical data	RIV 0.06/100
Filling capacity	100 l
Power of mixer main motor	5,5 kW
Power of agitator motor	4,0 kW
Range of rotation mixer	10 - 50 rpm
Range of rotation agitator	50 - 240 rpm
Dimensions mixer (L x W x H)	approx. 1.500 x 1.200 x 1.200 mm
Weight mixer	approx. 750 kg
Dimensions mixing station (L x W x H), incl. platform	approx. 1.800 x 1.500 x 1.500 mm
Weight mixing station, incl. platform	approx. 900 kg
