

Small mixer, great benefits.

Determine scalable results in a practical way.

LIEBHERR

Twin-shaft laboratory mixer DW 0.06/100

Optimum three-dimensional stock transport for demanding mixing quality tasks. Wide range of optional data acquisition and visualization options (temperature, speed, active power, torque, moisture measurement). Scaled reference and thus scale-up basis to the practical mixer. Fields of application: Fine grain blends, suspensions.

Technical data

Filling capacity	100 l
Power of mixer main motor	2 x 2,2 kW = 4,4 kW
Range of rotation mixer	20 - 111 rpm
Dimensions mixer (L x W x H)	approx. 800 x 1.300 x 1.000 mm
Weight mixer	approx. 400 kg
Dimensions mixing station (L x W x H), incl. platform	approx. 1.600 x 1.300 x 1.800 mm
Weight mixing station, incl. platform	approx. 500 kg
