## LIEBHERR

Liebherr-Werk Nenzing GmbH  
Customer service

The right service kit for every machine

# Original Liebherr service kits

Original Liebherr service kits are optimally harmonised for each individual type of machine and their respective service interval. These are available for:

- Crawler cranes
- Duty cycle crawler cranes
- Deep foundation machines

#### **Convenience**

One article number provides you with all the right Liebherr parts for professional maintenance of your machine. This simplifies the ordering process for you and thus saves time.

#### **Cost-effectiveness**

You benefit from cost savings of up to 10 % when ordering Liebherr service kits as opposed to ordering individual parts.

#### **Original quality**

Our kits contain only original Liebherr parts. These are manufactured according to Liebherr's high quality standards and therefore promote a long service life of your machine. Liebherr original parts offer the best protection and maximum efficiency in use. Continuous further development ensures maximum operational reliability and high performance.

#### **Availability**

Liebherr's worldwide service network ensures short delivery times and highest availability through local stocking of parts, thus keeping maintenance times and risks of downtime to a minimum.

#### **Partnership**

The service kits can be easily ordered online via the MyLiebherr customer portal. Your service partner will be pleased to advise you and assist you with your selection and order.

# Worldwide at your service
