

SCR Parts Kit

Service made Simple

Robust and Proven Quality

This robust and specially adapted case provides ideal storage for sensitive SCR components. The high quality case and parts are suitable for all machines that comply with the emission standards Stage IV/Tier 4F and Stage V. A step by step work manual is included to allow for easy and quick parts exchange.

Your benefits

Cost-effectiveness:

- site staff can carry out repairs with no need for external personnel
- the SCR kit is more economical as opposed to purchasing individual parts

Shorter downtimes:

- site personnel can carry out repairs immediately

Convenience:

- all parts are available on site
- replacement parts are listed in the manual and can be easily ordered in the online portal MyLiebherr or from your local service partner

Single Source

All the necessary parts for the repair of the SCR system of your Stage IV/ Tier 4F and Stage V machines are optimally incorporated in one case.

Original Quality

Liebherr original parts are perfectly tailored to Liebherr diesel engines. This is of vital importance as the performance of the whole machine relies on the quality and compatibility of the individual parts.

Straightforward

All components and usual working processes are clearly described in the accompanying documentation. The comprehensive manual combines working steps with corresponding tools and components.

The Liebherr Group of Companies

Wide Product Range

The Liebherr Group is one of the largest construction equipment manufacturers in the world. Liebherr's high-value products and services enjoy a high reputation in many other fields. The wide range includes domestic appliances, aerospace and transportation systems, machine tools and maritime cranes.

Exceptional Customer Benefit

Every product line provides a complete range of models in many different versions. With both their technical excellence and acknowledged quality, Liebherr products offer a maximum of customer benefits in practical applications.

State-of-the-art Technology

To provide consistent, top quality products, Liebherr attaches great importance to each product area, its components and core technologies. Important modules and components are developed and manufactured in-house, for instance the entire drive and control technology for construction equipment.

Worldwide and Independent

Hans Liebherr founded the Liebherr family company in 1949. Since then, the family business has steadily grown to a group of more than 130 companies with nearly 44,000 employees located on all continents. The corporate headquarters of the Group is Liebherr-International AG in Bulle, Switzerland. The Liebherr family is the sole owner of the company.
