This information is supplied without liability. Subject to technical modifications.

We'll do the planning for you.

We work as a team.

We guarantee success.

**Tower cranes are the main pivot point for the success of all types of sites.** The important thing is to select the correct crane types, their quantity, positioning and dimensions. These are important factors for meeting deadlines and budget targets.

The team at Tower Crane Solutions can provide advice for the project-related planning of the most efficient solution for your project. You can enjoy the benefit of over 60 years of Liebherr experience and the entire range of Liebherr tower cranes and components.

We will find the perfect solution for you – direct, personal and on time.

**Special technical solutions, constructive modifications of our cranes and effective site design are our strengths.**

When we work out your hoisting needs, we use all the expertise available in our company. This enables us to guarantee a comprehensive and efficient solution.

As a result of the wide-ranging nature of the Liebherr Group of Companies, you also benefit from the interdisciplinary exchange of experience and expertise.

**Our team includes experts from the following sectors to find the perfect solution for you:**

- Tower Crane Solutions
- Sales and marketing
- Engineering, design and structural engineering
- Production
- Tower Crane Service

**Your route to a complete custom solution is as easy as ABC.** Contact us direct or get in touch with your local Liebherr partner and tomorrow we will sit down together and develop an efficient solution to your hoisting challenges.

We will provide a prompt solution to your specific requirements and a smooth process. Our advice is personal and we can answer any questions you have quickly.

We will provide you with an optimal, coordinated crane concept. It will make your project a great success!

**Global support for planning custom solutions with specialists for the following applications:**

- Major projects
- Complex special projects
- Power station and plant construction
- Wind energy
- Shipbuilding yards
