To underpin compliance with practical steps, the companies intend to implement the following measures:

- Monitor UK supply chain through quality system supplier evaluation process, coupled with professional chartered memberships and confirm that suppliers accept the company's right to audit their activities (where practicable) at times of reasonable suspicion.

Key Performance Indicators

The companies' encourage all employees or any third party to inform the HR Management, in confidence, of any concern or issue of suspicion regarding a person acting on behalf of their company, one of its suppliers or one of its businesses seeking to exploit another person or persons in a way which could amount to modern slavery.

The companies' aims to encourage openness and will support anyone who raises genuine concerns in good faith under their policies, even if they turn out to be mistaken. Any reports are to be kept in confidence, subject to the need for the company to act responsibly and within the law.

The approach to modern day slavery must be communicated to suppliers, contractors and business partners domiciled within the UK at the outset of the company's business relationship with them and reinforced as appropriate thereafter.
