

Liebherr announces New Agreement with Republic Crane

March 2014 – Liebherr Construction Equipment Co., Newport News (VA/USA), is pleased to announce that it has reached an agreement with Republic Crane and Equipment Company, Charlotte (NC/USA), which will become effective in approximately one year. Under the agreement, Republic Crane will cease being the national distributor for Liebherr material-handling equipment used in scrap and will become a full-line Liebherr dealer for earthmoving and material handling equipment serving customers of a defined territory directly by its two locations in North Carolina and Kentucky.

This allows Liebherr Construction Equipment Co. to distribute earthmoving and material handling equipment in the US out of one source. Liebherr Construction Equipment Co will be announcing its detailed future plans with regard to the distribution of both these product lines in the near future.
