

Liebherr-Transportation Systems at InnoTrans 2014

Korneuburg (Austria) September 2014 – Liebherr-Transportation Systems will present innovative system from its product fields air conditioning and hydraulic actuation systems at this year's InnoTrans, which takes place in Berlin (Germany) from September 23 to 26.

On the company's stand N° 215 in hall 3.1, an air cycle machine, the centerpiece of the environmentally friendly air cycle air conditioning system, and a heating, ventilation and air conditioning (HVAC) system for driver cabins will be exhibited among other things. Electro-hydraulic actuators as components of roll and active lateral compensation systems will also be on display, embedded in a mock-up bogie. Not only will experts from the areas of development and sales be answering visitors' questions, but also representatives from customer service.

Moreover, Liebherr's railroader A922 Rail Litronic will be presented on stand N° FB/4 in the open-air area.

Career Pavilion: Information about career opportunities at Liebherr

In the Career Pavilion in the Career & Education Hall 7.1c, representatives of Liebherr-Transportation System's human resource department will be looking forward to meeting pupils, apprentices and students who are interested in working with the company. They will be answering questions and giving information about career opportunities and professions at Liebherr.

Liebherr-Transportation Systems – Renowned Manufacturer of Railway Technology

Liebherr-Aerospace & Transportation SAS in Toulouse (France) is one of eleven divisional control companies in the Liebherr Group and coordinates all activities in the

fields of transportation and aviation equipment. It employs around 4,900 people worldwide.

Liebherr's transportation systems division deals with air conditioning, hydraulic actuation systems and electronic components for rail vehicles of all kinds, and is backed by many years of experience in the development and manufacture of these technologies. In addition to its own sales and service centers, the division has access to the Group's development and service facilities around the world. This global set-up means that Liebherr-Transportation Systems is there for its customers wherever they may be.
