

Liebherr-Transportation Systems Wins Contract for Spare Parts from T2C

December 2015 – Liebherr-Transportation Systems will supply spare parts for heating, ventilation and air conditioning systems (HVAC systems) to French tram operator T2C.

The transport company running trams in the agglomeration of Clermont Ferrand (France) will use the spare parts for its fleet of trams type STE4 (Translohr). These 25 trams are equipped with HVAC systems manufactured by a third-party supplier.

“This order represents an important milestone for Liebherr-Transportation Systems, as it is the first contract for spare parts for a third-party manufacturer’s HVAC units we have won on the French market. We are very happy to welcome T2C as a new customer”, stated Dirk Junghans, Managing Director Sales, Marketing and Customer Services of Liebherr-Transportation Systems GmbH & Co KG.

Liebherr-Transportation Systems will establish a dedicated buffer stock in order to meet urgent operational needs and to ensure rapid deliveries to T2C.

Liebherr-Transportation Systems – Renowned Manufacturer of Railway Technology

Liebherr-Aerospace & Transportation SAS in Toulouse (France) is one of eleven divisional control companies in the Liebherr Group and coordinates all activities in the fields of transportation and aviation equipment. It employs around 4,900 people worldwide.

Liebherr’s transportation systems division deals with air conditioning, hydraulic actuation systems and electronic components for rail vehicles of all kinds, and is backed by many years of experience in the development and manufacture of these technologies. In addition to its own sales and service centers, the division has access to the Group’s development and service facilities around the world. This global set-up means that Liebherr-Transportation Systems is there for its customers wherever they may be.
