

Liebherr-Aerospace Renews Its Repair and Services Contract with Turkish Technic

May 2017 – Liebherr-Aerospace and Turkish Technic, the maintenance, repair and overhaul center of Turkish Airlines, have recently renewed their repair and services agreement for the Airbus fleet of A320/A330/A340 maintained by Turkish Technic.

The repair and services contract signed at Istanbul Ataturk International Airport, Istanbul (Turkey), covers the complete Airbus fleet of Turkish Airlines and third parties that is maintained by Turkish Technic.

Salih Ince, Component Services Director at Turkish Technic commented: “Turkish Technic has been very satisfied by the high service level of performance and responsiveness of the Liebherr team over the past four years. This was one of the key decision factors to renew the maintenance agreement between our two companies”.

The support services will be performed by Liebherr-Aerospace’s service stations in Lindenberg (Germany), Original Equipment Manufacturer (OEM) and center of excellence for landing gear and flight control systems, and in Toulouse (France), OEM and center of excellence for air management systems.

Liebherr-Aerospace is a leading supplier of systems for the aviation industry

Liebherr-Aerospace & Transportation SAS, Toulouse (France), is one of eleven divisional control companies within the Liebherr Group and coordinates all activities in the aerospace and transportation systems sectors.

Liebherr-Aerospace is a leading supplier of systems for the aviation industry and has more than five decades of experience in this field. The range of aviation equipment produced by Liebherr for the civil and military sectors includes flight control and actuation systems, landing gear, air management systems as well as gears and gearboxes. These systems are deployed in wide-bodied aircraft, single aisle and regional aircraft, business jets, combat aircraft, military transporters, military training aircraft, civil helicopters and combat helicopters.

Liebherr's aerospace and transportation systems division employs around 5,200 people. It has four aviation equipment production plants at Lindenberg (Germany), Toulouse (France), Guaratinguetá (Brazil) and Nizhny Novgorod (Russia). These production sites offer a worldwide service with additional customer service centers in Saline, Michigan (USA), Seattle, Washington (USA), Montréal (Canada), Sao José dos Campos (Brazil), Hamburg (Germany), Moscow (Russia), Dubai (UAE), Singapore and Shanghai (People's Republic of China).
