

Press release

Liebherr Earns Spot in Boeing Premier Bidder Program

Liebherr-Aerospace announced it has earned a spot in the Boeing Premier Bidder Program. The program recognizes and rewards consistently high performing Boeing Commercial Airplanes suppliers and gives them an opportunity to increase their business with Boeing.

Toulouse (France), July 2020 – Liebherr supplies Boeing with major systems and components for various aircraft programs:

Liebherr-Aerospace Lindenberg GmbH, Lindenberg (Germany), Liebherr's center of excellence for flight controls, actuation, gears and gearboxes, landing gear systems and electronics, produces for the 777X the folding wing tip actuation, high-lift actuators (leading edge actuators built to spec, trailing edge actuators built to print) as well as the power drive unit and hydraulic motor for the leading edge actuation system. For the 777 / 777X the company provides the main gear steering system, for the 787 Dreamliner, the nose wheel steering remote electronic unit and for the KC-46 the refueling hose drum drive system.

Liebherr-Aerospace Toulouse SAS, Liebherr's center of excellence for air management systems based in Toulouse (France) signs responsible for the 747-8 air-conditioning system and engine bleed air system; and fuel tank pressure regulating valves for the 777-200LR as well as for the KC-46.

“We are extremely proud to have been selected for the Boeing Premier Bidder Program. Over the years, sharing a same ambition and through mutual effort, Boeing and Liebherr have developed a proactive, open and trustful relationship. With our liaison office in Everett, we are ensuring a high proximity between both companies during ongoing as well as possible future aircraft programs. We are able to provide Boeing with a high level of support and reactivity”, states Nicolas Bonleux, Chief Commercial Officer, Liebherr-Aerospace & Transportation SAS.

Liebherr joins approximately 100 suppliers that have met and/or sustained the high quality and delivery criteria required for inclusion in the Premier Bidder Program.

About Liebherr-Aerospace & Transportation

Liebherr-Aerospace & Transportation SAS, Toulouse (France), is one of eleven divisional control companies within the Liebherr Group and coordinates all activities in the aerospace and transportation systems sectors. Liebherr-Aerospace is a leading supplier of systems for the aviation industry and has more than six decades of experience in this field. The range of aviation equipment produced by Liebherr for the civil and military sectors includes flight control and actuation systems, gears and gearboxes, landing gear and air management systems as well as electronics. These systems are deployed in wide-bodied aircraft, single aisle and regional aircraft, business jets, combat aircraft, military transporters, military training aircraft, civil helicopters and combat helicopters.

Liebherr's aerospace and transportation systems division employs around 6,200 people. It has four aviation equipment production plants at Lindenberg (Germany), Toulouse (France), Guaratinguetá (Brazil) and Nizhny Novgorod (Russia). These production sites offer a worldwide service with additional customer service centers in Saline (Michigan/USA), Seattle (Washington/USA), Montreal (Canada), Hamburg (Germany), Moscow (Russia), Dubai (UAE), Bangalore (India), Singapore and Shanghai (People's Republic of China).

About the Liebherr Group

The Liebherr Group employs over 48,000 people in more than 140 companies across all continents. In 2019 Liebherr achieved a total consolidated turnover of more than 11.7 billion euros. As a global family-run technology company the Group is one of the world's largest manufacturers of construction machines and is recognised for developing technically advanced and user-oriented products and services. Liebherr was founded in Kirchdorf an der Iller in southern Germany in 1949.
