

Press release

Ulferts & Wittrock orders another 31 Liebherr mobile cranes

- **Ulferts & Wittrock places another large order**
- **Expansion of its 5-axle class with a number of LTM 1150-3.1 cranes**
- **Ulferts & Wittrock Group active throughout Germany**

Over the last two years, the Ulferts & Wittrock Group has taken delivery of eighty new Liebherr mobile cranes. Another order package for 31 cranes for delivery this year was signed recently. Ulferts & Wittrock is modernising its nationwide crane fleet with new Liebherr cranes. The cranes range from the LTM 1040-2.1 to the LTM 1250-5.1. Around one-third of the machines ordered are in the 5-axle class.

Ehingen / Donau (Germany), 9 March 2021 – The new order package includes a large number of the new LTM 1150-5.3. Marcus Wittrock, Managing Partner at Ulferts & Wittrock, explains: “The new Liebherr 150 tonne crane enables us to expand our 5-axle class perfectly as it delivers excellent lifting capacities, a very long telescopic boom and can carry a good deal of ballast on public roads.”

Liebherr unveiled the LTM 1150-5.3 in October last year as the successor to the successful LTM 1130-5.1. With a maximum lifting capacity of 150 tonnes and a 66 metre telescopic boom, it is the perfect addition to Liebherr’s crane range below the 180 tonne LTM 1160-5.2. The 10 percent longer telescopic boom compared to its predecessor will, on average, hoist 15 percent higher loads with both maximum and part ballast. And with this in mind, the Liebherr engineers have produced a minor miracle – the new crane has the same low gross weight as its predecessor. With an axle load of twelve tonnes, the crane can carry nine tonnes of ballast on public roads.

Ulferts & Wittrock and Liebherr have had a long term partnership. “We feel that Liebherr takes good care of us. The cranes are state of the art in technical terms. Furthermore, they retain the value very well and are therefore in great demand as used cranes”, are the reasons Temmo Niekamp, also a Managing Partner at Ulferts & Wittrock, says are behind the company’s decision to continue to modernise its crane fleet with Liebherr mobile cranes.

Managing Partner Oliver Herrmann continues: “In our industry, the high availability of cranes is essential. That means we are reliant on excellent after-sales service with reliable, fast supplies of spare parts. That is where Liebherr is exemplary.”

The Ulferts & Wittrock Group

Ulferts & Wittrock was founded in Oldenburg in 1989 and started its journey to become a logistics service provider in the heavy load sector with five mobile cranes. The company grew steadily as the number of wind turbines requiring erection increased. Today, Ulferts & Wittrock has a number of sites in Germany and a fleet of the very latest mobile cranes with lifting capacities between 30 and 600 tonnes, crawler cranes with lifting capacities between 130 and 650 tonnes, mobile construction cranes, work platforms and telescopic forklift trucks as well as various heavy haulage trucks.

About Liebherr-Werk Ehingen GmbH

Liebherr-Werk Ehingen GmbH is a leading manufacturer of mobile and crawler cranes. Its range of mobile cranes extends from 2-axle 35 tonne cranes to heavy duty cranes with a lifting capacity of 1200 tonnes and a 9-axle chassis. Its lattice boom cranes on mobile or crawler crane chassis deliver lifting capacities of up to 3000 tonnes. With universal boom systems and extensive additional equipment, they can be seen in action on construction sites throughout the world. The Ehingen site has a workforce of 3,500. Extensive, global service guarantees the high availability of Liebherr mobile and crawler cranes. In 2019, the Liebherr plant in Ehingen recorded a turnover of 2.1 billion euros.

About the Liebherr Group

The Liebherr Group is a family-run technology company with a widely diversified product range. The company is one of the largest manufacturers of construction machines in the world, but also supplies technically advanced, user-focused products and services in many other sectors. The group currently comprises more than 140 companies based in every continent of the world, has a workforce of over 48,000 and recorded a consolidated total turnover of more than 11.7 billion euros in 2019. Since it was founded in 1949 in Kirchdorf an der Iller in southern Germany, Liebherr’s aim has been to win customers by supplying high quality solutions and to contribute to technological progress.
