

Press information

Liebherr transfers rental business for tower cranes in Paris and Northern France to Hexagone Services S.A.S.

- **The Liebherr Group has a fleet of several hundred tower cranes in France. A part of this fleet is located in the Ile-de-France and Northern France.**
- **At the end of the third quarter in 2021, Hexagone Services S.A.S, a subsidiary of the Dutch Liebherr tower crane dealer Van der Spek., will continue the Liebherr rental business for tower cranes in this region.**
- **Liebherr-Grues à Tour SAS in Fontenay-Trésigny, the technical support centre for the Tower Cranes product segment, will thus become the National Technical Centre for Liebherr Tower Cranes in France.**
- **Liebherr continues the sale of tower cranes in France and its rental business in the other regions of the country.**

Biberach (Germany), 07th of June 2021 – On 1 September 2021 Liebherr will hand over its rental business of tower cranes in the French region Ile-de-France and the North to Hexagone Services S.A.S.

According to Marco Guariglia, Sales Manager at Liebherr-Werk Biberach GmbH, "France has always been very important to Liebherr. With this step we will further strengthen our partners in the rental business and expand our market position."

Hexagone has developed into a large rental company and will expand its activities in the Ile-de-France region and the north of France. "Since 2000 we, Hexagone, have been known as a rental company in France. We have grown significantly in the last 20 years and consider this operation as a confirmation of our philosophy", says Erik van Audenrode, Manager of Van der Spek Belgium.

Christophe Zimmermann, Manager of Liebherr-Grues à Tour SAS, the Liebherr company in charge of the rental business of tower cranes in Ile-de-France up to now, considers this synergy between Liebherr and Hexagone as a result of the many years of successful cooperation. He also sees an opportunity for Liebherr to focus on the core business of crane sales and the premium service in Paris and Northern France.

The Liebherr subsidiary in Fontenay-Trésigny is being developed into the National Technical Centre for Liebherr Tower Cranes in France. In the future further growth in the country will be supported and accompanied from this location by services, training and the handling of the logistics.

About the „Liebherr-Werk Biberach GmbH“

Liebherr-Werk Biberach GmbH was founded in 1954. Today it is one of the largest international manufacturers of tower cranes. At the Biberach location, the company develops and produces one of the most variable construction crane product programs in the world. The high-performance systems and size categories provide the ideal lifting technology for every structural engineering task.

About the Liebherr Group

The Liebherr Group is a family-run technology company with a highly diversified product portfolio. The company is one of the largest construction equipment manufacturers in the world. It also provides high-quality and user-oriented products and services in a wide range of other areas. The Liebherr Group includes over 140 companies across all continents. In 2020, it employed around 48,000 staff and achieved combined revenues of over 10.3 billion euros. Liebherr was founded in Kirchdorf an der Iller in Southern Germany in 1949. Since then, the employees have been pursuing the goal of achieving continuous technological innovation, and bringing industry-leading solutions to its customers.
