

Press release

Hüffermann sets up new rental fleet with tower cranes from Liebherr

- Hüffermann to take delivery of 70 Liebherr tower cranes over the course of 2021
- The order includes cranes of various sizes; from the L1-32 and assorted K series cranes to the 370 EC-B 12 Fibre
- Another major order is planned for 2022

Hüffermann Krandienst GmbH has purchased 70 Liebherr tower cranes in one go to set up its new rental fleet. A symbolic handover recently took place during a visit to Liebherr's production facilities in Biberach.

Biberach (Germany), July 2nd, 2021 – The first cranes are already in service at Hüffermann Krandienst. A total of 70 new Liebherr tower cranes are set to be ready for work by the end of the year.

Another major order for Liebherr tower cranes has been indicated for 2022. Daniel Janssen, Managing Director at Hüffermann Krandienst GmbH, has had good results with Liebherr tower cranes in the past, "We have always been more than satisfied and already know that we'll be upping the order to 250 cranes," says Janssen.

The representatives from Hüffermann used the handover meeting in Biberach to discuss deliveries to date and to finalise the details of those still outstanding. It was also agreed that Liebherr would provide its key customer with training on the new cranes, including on the first fibre rope cranes in Hüffermann's fleet.

Hüffermann offers a wide range of Liebherr cranes

The Wildeshausen-based Hüffermann Group is known throughout Europe for its modern fleet and its comprehensive services for crane and heavy haulage logistics. In addition to the new Liebherr tower cranes, the company's rental fleet includes mobile construction cranes as well as mobile and crawler cranes from Liebherr. The Hüffermann Group also offers loader cranes and truck-mounted working platforms as well as heavy-duty assembly, transport engineering and glass installation services. The crane service providers Autodienst West in Frankfurt and Eisele AG – Crane & Engineering Group in Maintal also belong to the Group as does a freight forwarding company for heavy goods and special transports.

About the Liebherr Tower Cranes Division

More than seven decades of experience have made Liebherr a recognised specialist for lifting technology on all types of construction sites. The range of Liebherr Tower Cranes encompasses an extensive selection of high-quality tower cranes that are used worldwide. This includes fast-erecting, top-slewing, luffing jib and special-purpose cranes as well as mobile construction cranes. In addition to these products, Liebherr also offers a wide range of services that complete the company's portfolio: Tower Crane Solutions, Tower Crane Center and Tower Crane Customer Service.

About the Liebherr Group

The Liebherr Group is a family-run technology company with a highly diversified product portfolio. The company is not only one of the largest construction equipment manufacturers in the world, but also provides high-quality and user-oriented products and services in a wide range of other areas. Today, the Group consists of more than 140 companies across all continents, employs around 48,000 people and, in 2020, achieved a total turnover of over 10.3 billion euros. Liebherr has pursued its goal of satisfying customers with industry-leading solutions and shaping technological progress since its founding in 1949, in Kirchdorf an der Iller in Southern Germany.
