

Press release

For the fleet of the future: The Erectors buy their first LTM 1300-6.3

- **Largest Liebherr mobile crane for Canadian crane company The Erectors**
- **At 90 metres, the LTM 1300-6.3 has the longest transportable crane boom in its class**
- **Overall package of product, features and service impresses customers**

Crane rental company The Erectors Hoisting and Rigging Inc. has added the new LTM 1300-6.3 to its fleet. This is a mobile crane that has the longest boom in its class and can be carried at 12 tonnes axle load. In future, it will be used for erecting and dismantling tower cranes and as a taxi crane in crane rental.

Ehingen (Donau), (Germany), 24. July 2023 – Since the beginning of June, the LTM 1300-6.3 has been a permanent part of The Erectors fleet. “The LTM 1300-6.3 complements our fleet perfectly: the 300-tonne crane is a crane of the future and makes our fleet even more innovative”, Justin Tabani from The Erectors is pleased with the new addition and adds: “We chose this Liebherr mobile crane because it is simply the best in its class.” It has a 90-metre telescopic boom, which it carries on six axles. With lattice extensions, it allows a maximum hook height of 120 metres and a maximum boom radius of 94 metres. Safe and powerful crane operation is also ensured thanks to an array of integrated features: ECOmode, ECOdrive, VarioBase®Plus, VarioBallast®, Auto-Ballast, single-engine concept, and the wind speed load charts.

A versatile machine, the LTM 1300-6.3 is ideal for The Erectors. The Canadian company specialises in tower crane erection, dismantling, maintenance in addition to mobile crane rental. “We chose a Liebherr machine because of the company’s commitment to their customers and the industry, and the fact that they continue to make their already excellent products even better”, explains Jeffrey Burke from The Erectors. But it was not only the hardware and software features that were decisive when The Erectors made their decision: “We can also depend on reliable service backed up by more than 70 years of industry experience”, says Marco Ottorino from The Erectors, appreciating the global Liebherr service network, which has more than 100 locations in over 70 countries.

Marco Ottorino, Jeffrey Burke and Justin Tabani founded The Erectors Hoisting and Rigging Inc. The Canadian-based crane company is providing innovative lifting and transport solutions to its customers in Southern Ontario.

About Liebherr-Werk Echingen GmbH

Liebherr-Werk Echingen GmbH is a leading manufacturer of mobile and crawler cranes. Its range of mobile cranes extends from 2-axle 35 tonne cranes to heavy duty cranes with a lifting capacity of 1200 tonnes and a 9-axle chassis. Its lattice boom cranes on mobile or crawler crane chassis deliver lifting capacities of up to 3000 tonnes. With universal boom systems and extensive additional equipment, they can be seen in action on construction sites throughout the world. The Echingen site has a workforce of 3,800. Extensive, global service guarantees the high availability of Liebherr mobile and crawler cranes. In 2021, the Liebherr plant in Echingen recorded a turnover of 2.33 billion euros.

About the Liebherr Group

The Liebherr Group is a family-run technology company with a highly diversified product portfolio. The company is one of the largest construction equipment manufacturers in the world. It also provides high-quality and user-oriented products and services in a wide range of other areas. The Liebherr Group includes over 140 companies across all continents. In 2021, it employed more than 49,000 staff and achieved combined revenues of over 11.6 billion euros. Liebherr was founded in Kirchdorf an der Iller in Southern Germany in 1949. Since then, the employees have been pursuing the goal of achieving continuous technological innovation, and bringing industry-leading solutions to its customers.
