LIEBHERR

Liebherr-International AG

One portal, all services

MyLiebherr

Digitalisation

Shaping the construction site of the future

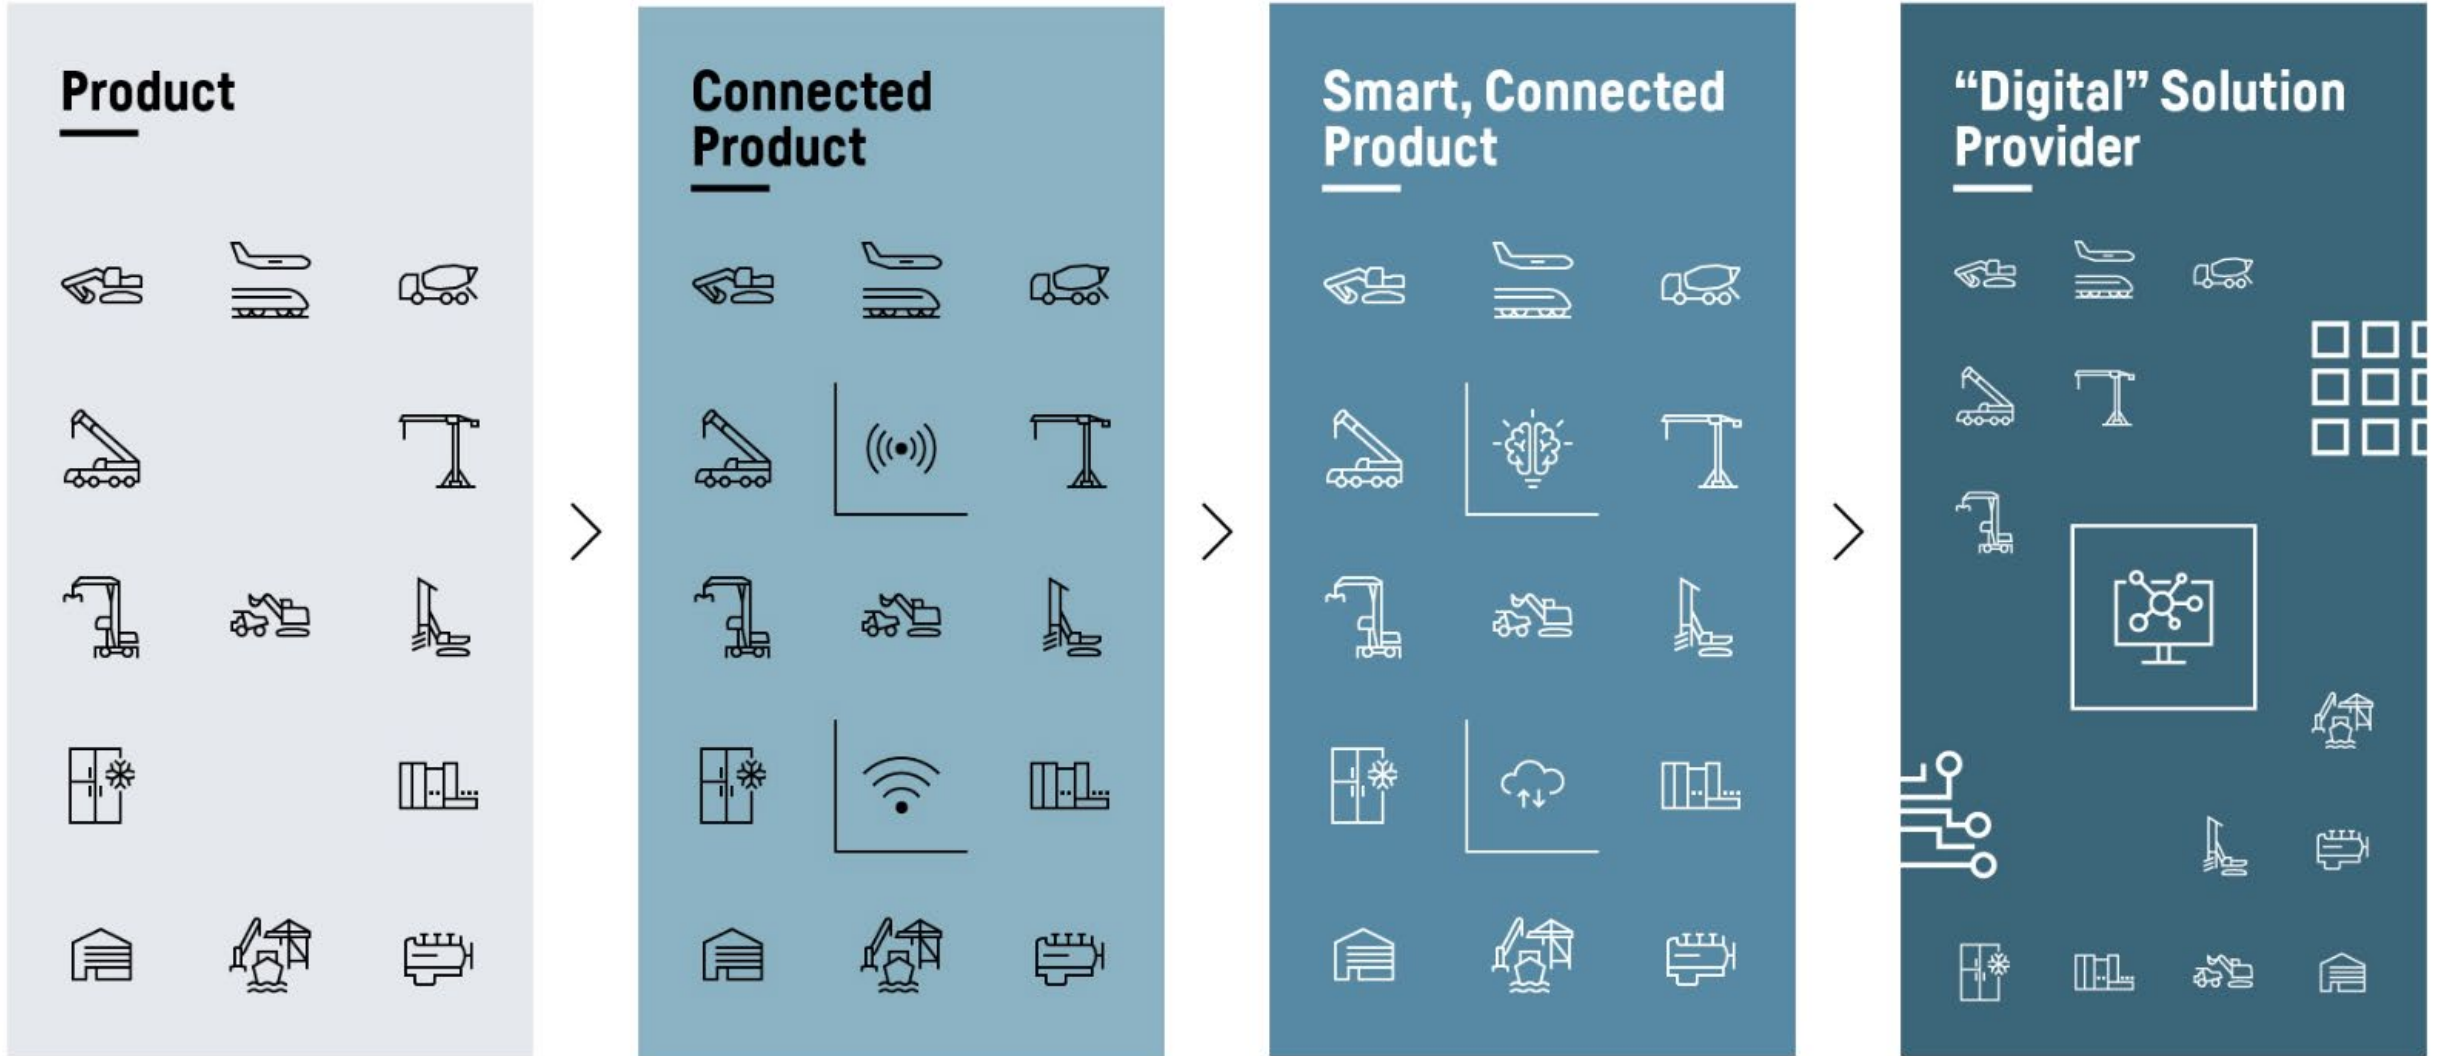

Areas of digitalisation

MyLiebherr - entry point into Liebherr's digital world

Digital portfolio

Pillars of customer centricity

Generate measurable added value on different levels

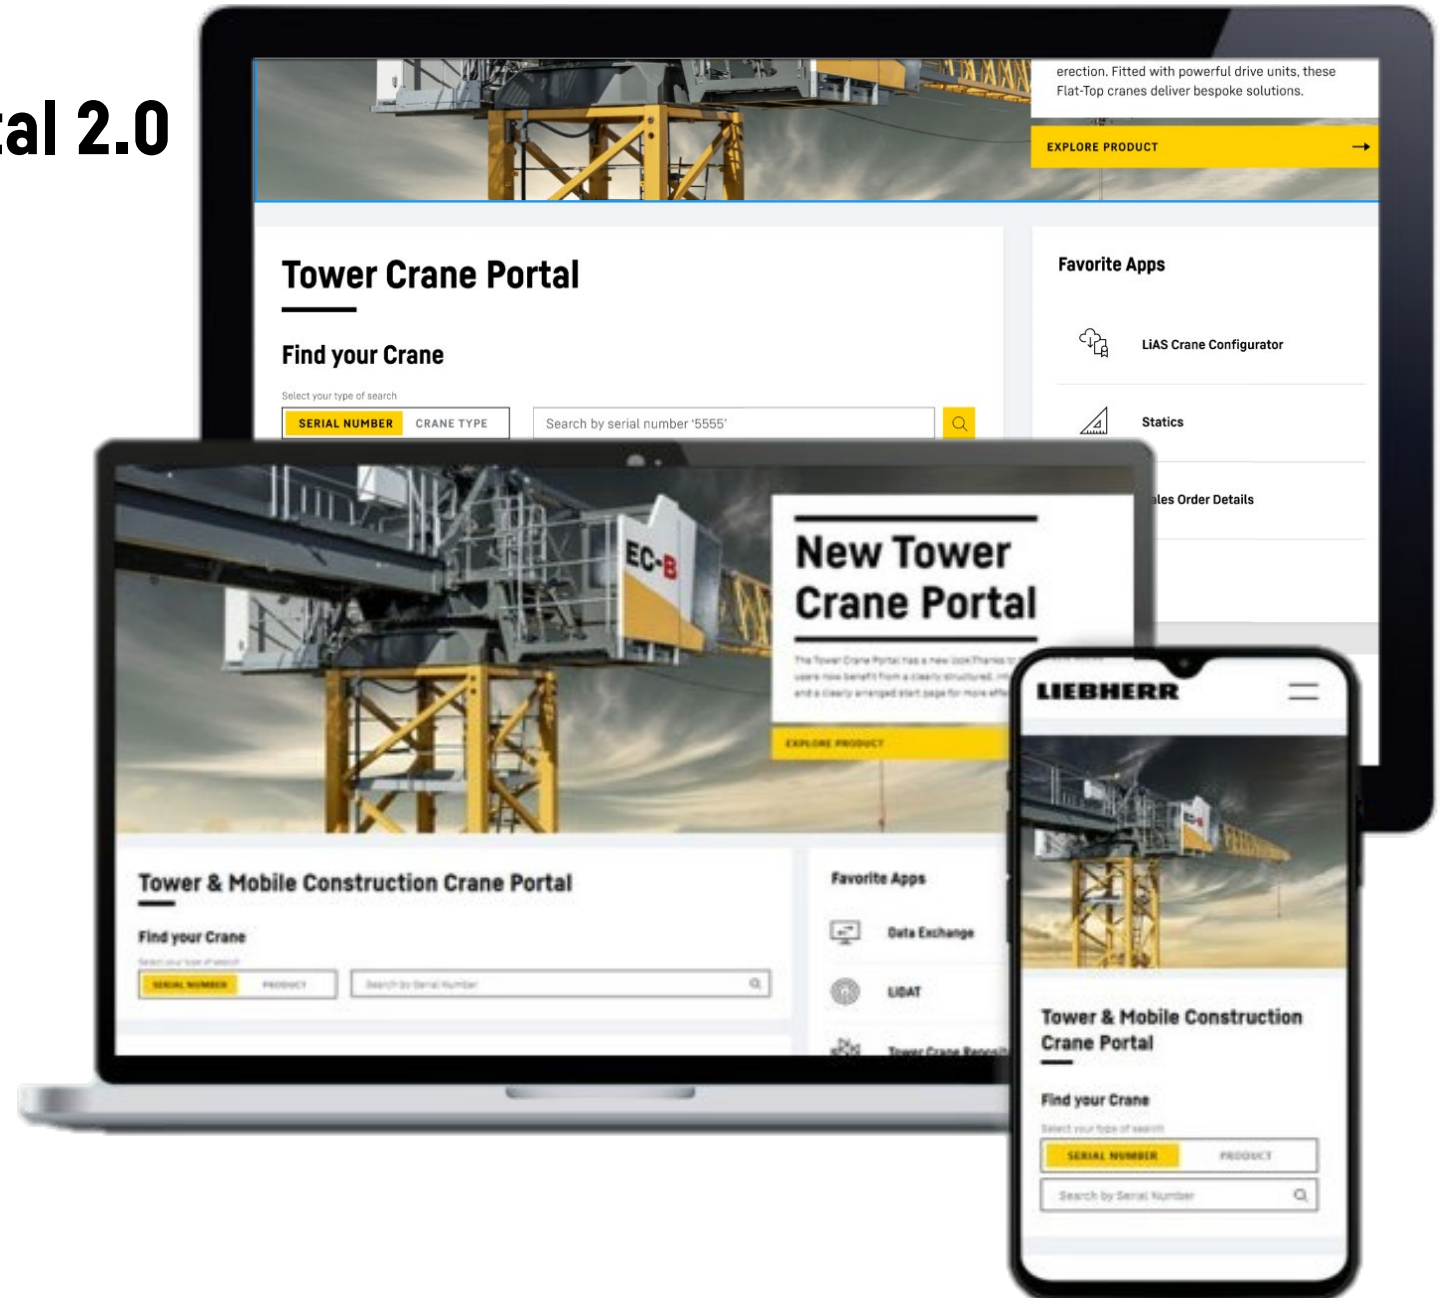

One portal, all services
MyLiebherr

- 124k+ active user
- 58k+ registered companies

Example: Tower Crane Portal 2.0

- Fully integrated in MyLiebherr and activated as soon as equipment from tower cranes product segment is registered
- New look and better performance:
 - Redesign of crane details, sales and product information database
 - Global search across document types
 - Listing of favorite apps
 - Improved display on mobile devices

MyLiebherr with new features

Redesign of app area

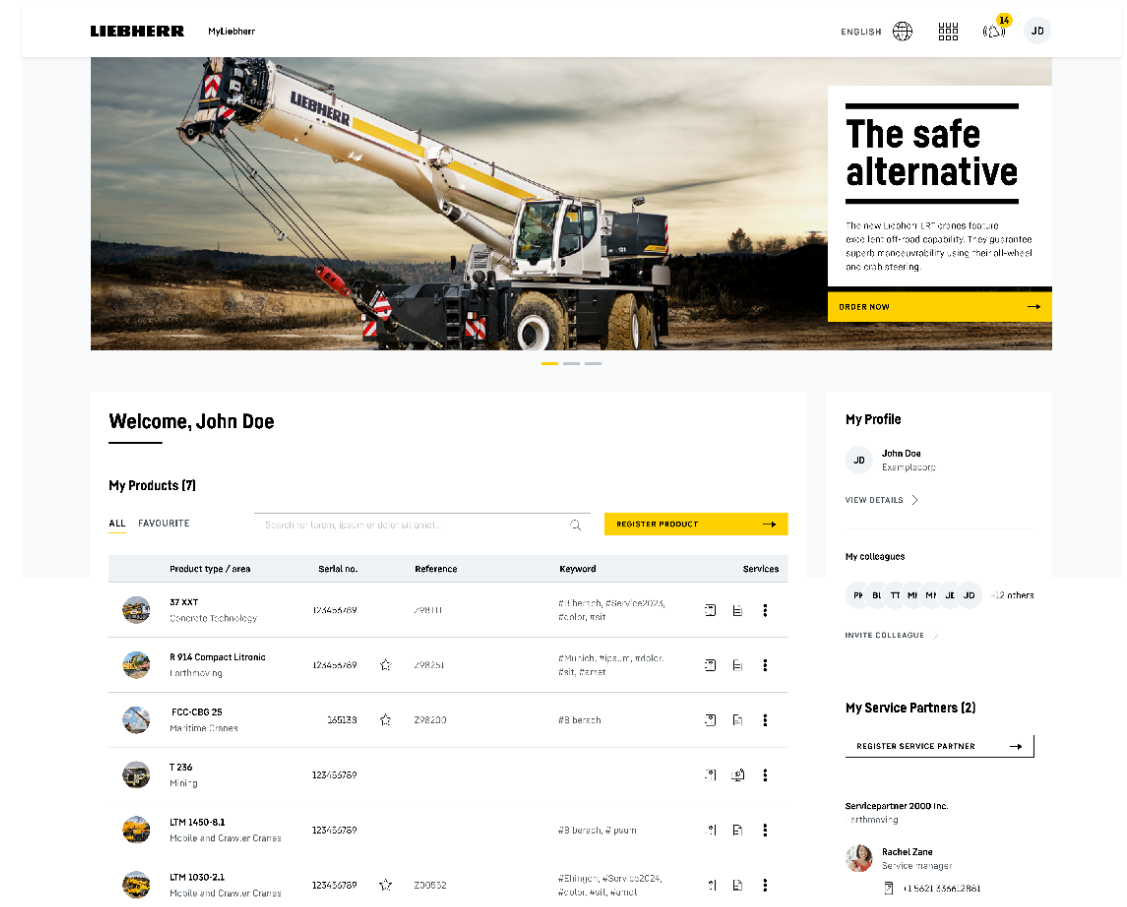

- Mark frequently used apps as favorites, filter them by product area or category

Fleet management

- Authorized users receive real-time information such as location and status of machines

News directly in the portal

- Notifications about registered machines and information about orders

Pillars of customer centered digital activities

We apply the Group's **future-oriented, strategic focus** and **knowledge of customer needs** to offer a tailored suite of solutions.

We enable **cross-manufacturer integration** into our customers' and partners' ecosystems, as well as **end-to-end digitalisation** of machines and devices.

We offer **digital solutions** and **communication channels** to improve **performance, reliability** and **safety** of Liebherr devices, machines, processes and services, as well as providing a user-centric experience.

We're by our customers and partners side with optimal **support** to assure **customer's experience** throughout the **entire life cycle** of applications and digital solutions.

**Thank
you!**
