

Press release

Good things come in threes: new mobile crane for Mantovani Global Services Srl

- LTM 1150-5.3 becomes the third mobile crane of Mantovani's fleet
- Italian customer convinced by product features and high technology
- Manoeuvrability and economic efficiency ideal for different applications

Italian customer Mantovani Global Services Srl expands its fleet by adding a 150-tonne mobile crane. The new LTM 1150-5.3 is lining up next to an LTM 1100-5.2 and an LTM 1250-5.1.

Ehingen (Donau) (Germany), 17 May 2024 – Italian customer Mantovani Global Services Srl purchased an LTM 1150-5.3. The new mobile crane successfully rounds off crane hire company's fleet and is lined up next to an LTM 1100-5.2 and an LTM 1250-5.1. The 150-tonne-crane will be used for many different applications such as construction and naval port industries. "We wanted to complete our fleet and eventually the LTM 1150-5.3 was the best choice. The crane convinced us with its versatility, its boom length and VarioBase® system. Despite its dimensions, the crane is compact, has great manoeuvrability, and economic efficiency", says owner Sandro Mantovani. The crane has a 66-metre-telescopic boom and when fully extended, it can lift more than nine tonnes. "Indeed, it can complete lots of jobs without requiring additional ballast transport vehicles", says Mantovani.

Liebherr as a reliable partner

"When it comes to Liebherr we always think of product features and technological innovations. These two aspects are important for us and knowing that we have such a reliable partner means we can offer quality, services and safety to our customers in return", says Mantovani.

The crane hire company from Venetia started its business in the 1950s. Today Mantovani offers customers a complete crane service for heavy lifts. A wide range of services comprises mobile cranes with lifting capacities of up to 250 tonnes and booms of up to 90 metres. Aerial platform services up to a height of 60 metres – with or without an operator – and helicopter service for transport and lifting work complete the service portfolio.

About Liebherr-Werk Ehingen GmbH

Liebherr-Werk Ehingen GmbH is a leading manufacturer of mobile and crawler cranes. Its range of mobile cranes extends from 2-axle 35 tonne cranes to heavy duty cranes with a lifting capacity of 1200 tonnes and a 9-axle chassis. Its lattice boom cranes on mobile or crawler travel gear deliver lifting capacities of up to 3000 tonnes. With universal boom systems and extensive additional equipment, they can be seen in action on construction sites throughout the world. The Ehingen site has a workforce of 5,000. An extensive, global service network guarantees the high availability of Liebherr mobile and crawler cranes. In 2023, the Liebherr plant in Ehingen recorded a turnover of 2.81 billion euros.

About the Liebherr Group

The Liebherr Group is a family-run technology company with a highly diversified product portfolio. The company is one of the largest construction equipment manufacturers in the world. It also provides high-quality and user-oriented products and services in a wide range of other areas. The Liebherr Group includes over 140 companies across all continents. In 2022, it employed more than 50,000 staff and achieved combined revenues of over 12.5 billion euros. Liebherr was founded in Kirchdorf an der Iller in Southern Germany in 1949. Since then, the employees have been pursuing the goal of achieving continuous technological innovation, and bringing industry-leading solutions to its customers.
