Crandiose perspectives

The digital mobile crane operator licence

Successful mobile crane jobs do not happen by chance. Constricted sites, difficult terrain, interfering edges and stringent safety regulations present constant challenges.

So what is the solution to these problems? The perfect interplay between a good crane and a good operator.

And this is precisely where we come into play – with the digital mobile crane operator licence.

Fantastic views

Learn mobile crane operator theory in 3 days

If you are new to mobile crane operation, we can support you with the certified digital mobile crane operator licence. You will learn the essential theoretical specialist and legal principles for handling a mobile crane in a total of 18 course units. This will ensure maximum safety when you later operate the crane.

And what is more, you can even qualify for the licence from your hammock – either at home or on the beach. Online, at a time to suit you and completely independently.

Once you have successfully concluded the course, you will receive your mobile crane operator certificate. And then you can look forward to some fantastic views as a mobile crane operator.

Uplifting moments

Thanks to being a certified mobile crane operator

In addition to new entrants, the digital mobile crane operator licence is also aimed at experienced crane operators and crane rental companies, for use as a refresher course, basic training or as part of an advanced training concept.

Your personnel will learn the main theoretical content for operating a mobile crane safely with complete independence. That enables you to enhance the safety of your personnel, machines and site environments.

And what is more, by having certified crane operators, you will be setting new standards. That will set you apart from your competitors – particularly as trained personnel continue to become more scarce.
